# Dear Surgeons,

Join the Clinical  
Orthopaedic Society:  
Lead the Next  
Generation of  
Orthopaedic Care

## Cutting-Edge Education:

Gain access to clinical,  
hands-on workshops and  
interactive learning.

## Mentorship:

Guide residents and  
medical students, sharing  
your expertise.

## Collaborative Impact:

Work with top professionals  
to advance musculoskeletal  
care.

# Benefits

## Affordable Membership:

Just \$350 annually, with  
50% off your first-year  
meeting registration.

## Legacy & Innovation:

Join a prestigious society  
blending tradition with  
cutting-edge education and  
research.

## Leadership Opportunities:

Lead workgroups and shape  
the future of orthopaedic  
education and care.

## Exclusive Savings:

Discounts on meetings,  
workshops, and educational  
resources, plus access to  
540+ engaged  
professionals.

Our next Annual Meeting will be held at the Omni Amelia Island Resort in Florida from September 3-6, 2025. This year's theme, "**Orthopaedic Renaissance: Continuing the Vision**," builds on our commitment to combining modern advancements with the foundational principles of clinical excellence.

- World-Class Education – Featuring podium presentations, rapid-fire sessions, case discussions, and cutting-edge research
- Unmatched Networking – Engage with orthopaedic leaders, trainees, and medical students in an interactive setting
- Medical Student & Resident Engagement – Expanded programs, including mentorship sessions, research competitions, and leadership development opportunities
- Scenic Location & Social Events – Enjoy a beautiful oceanfront venue, complete with networking receptions and unique social programming

The COS Annual Meeting is a national and intimate, yet academically rich event designed to foster genuine connections, clinical insights, and professional development. With record-breaking abstract submissions and increasing attendance, this is the ideal time to engage with COS.

# Join Us in Strengthening COS!

The founders of COS pursued and promoted the clinical foundation of orthopaedic surgery, establishing a society that emphasized hands-on learning and patient-centered education. Our motto is, "Learn by seeing, hearing, fellowship, and criticism." **Now, it is our responsibility to continue this mission. I ask you to join me and others in this mission.** Become a part of the revitalization of COS and help return it to its roots, where clinical excellence and mentorship define our profession.

With your support and active participation, we can expand COS further, ensuring its influence and educational impact continue for generations to come. **This is more than just joining a society—it's about rebuilding a foundation that has shaped our field for over a century. I assert that we are obligated to make COS into the modern, re-energized version** based on our founders' goals. I know we can accomplish this together to transform our potential to reality. My priority is to bring passionate individuals into the society.

# Join COS Today!

Thank you for being a part of this incredible journey. Let's continue to honor our past while building an even stronger future—together.

See you in Amelia Island in 2025!

Sincerely,

Afshin E. Razi, MD  
President, Clinical Orthopaedic Society

Omni Amelia Island  
Resort and Spa  
Amelia Island, FL  
September 3-6, 2025

# A Message from our Vice President

MARLENE DEMAIO, MD EdD  
VICE PRESIDENT, CLINICAL ORTHOPAEDIC SOCIETY

“The best way to predict the future is to create it.”  
- Peter Drucker

Along with President Razi and the entire Board of Directors, welcome to the Newsletter of the Clinical Orthopaedic Society. No doubt, you may be a bit overwhelmed by all the accomplishments and goals shared in Dr. Razi’s column. Don’t be! You are the reason for these successes and plans. In summary, Dr. Razi explained the transformational change of the COS has resulted in our renaissance. The Board of Directors and I support this new significant change in our operations and structure. How has COS changed and how will we continue?

**Annual Meeting.** To provide an information packed, relevant scientific program with ample opportunity for networking and socializing, we have organized another high-quality program (see the details below). Our program Co-Chairs are Jaimo Ahn, MD PhD and James Wittig, MD. We have expanded our Rapid-Fire Abstract presentations, posters, and ePosters. The content of the abstracts was so high last year that we plan to share the 2025 content beyond our webpage. There will be more information as we hammer out the details. We will continue to financially support medical students and residents who attend. Further, we will continue to have special sessions specifically for medical students and residents, our colleagues in training. Besides the recurring lectureships of the Presidential Speaker and the Dr. & Mrs. Elmer Nix Ethics Award, there will be two new lectures. The first is the Dr. George Brindley Lectureship. Dr. Brindley is a past president of COS and the Chair, Orthopaedic Surgery Department at University of Texas, Lubbock. Dr. Brindley plans to have a motivational speaker to inspire you on your journey of orthopaedic excellence. The second will be on a topic external to the practice of orthopaedics but will affect it. We will update you when we have more details.

**Strategic Planning.** The Board of Directors, our Executive Director Jessica Quintilian, and invited guests attended a strategic planning meeting in December 2024. There, results of the September SWOT analysis were carefully reviewed with particular attention to maintaining and improving our strengths, correcting our weaknesses, capitalizing on opportunities, and addressing our threats. We will keep you updated as we refine the goals from our strategic planning meeting. For now, your support in attending the annual meeting, submitting abstracts, and volunteering is greatly appreciated.

**Work Groups.** The Board of Directors approved several new work groups to support the change in our operations. A full list of these work groups and their members is listed in the Newsletter on pages 6 and 7. For example, this very Newsletter and social media posts are the creations of highly dedicated teams keeping COS current. Most are medical students with plans to become orthopaedic surgeons! Other work groups assisting with COS changes are the Social Events and Industry Sponsorship. If you are interested in volunteering, please contact COS by emailing Dr. Razi at [Orthospine70@gmail.com](mailto:Orthospine70@gmail.com).

**Collaborations.** We at COS would like to strengthen our position in the orthopaedic community and extend our focus on clinical excellence and mentoring with other societies. We are in discussions with a few groups to formalize such collaborations. We are certain that such collaborations will also provide you with more benefits.

In closing, I want to extend my thanks for reading our revived Newsletter. If you have ideas for future Newsletters or would like to submit a column, poem, or photograph, please contact us by emailing us at [email@cos.org](mailto:email@cos.org).

As your Vice President, I look forward to hearing from you and working together with you to create the future of our COS.

Sincerely,

Marlene DeMaio, MD EdD  
Vice President, Clinical Orthopaedic Society

Thank You to the COS Scholarship and Award Donors!

We would like to thank the following contributors for their generous support in 2024. The continued ability for COS to fund Medical Student and Resident/Fellow Awards and scholarship (more than \$20000) for the Annual Meeting is due in large part to the generous donations by COS members. Thank you for your support!

# CALL FOR ABSTRACTS

## COS Clinical “Learn By” Moment

Whenever there is postoperative delayed healing (soft tissue or bone), failure of the patient to make clinical milestones, persistent postoperative hyperglycemia, or implant failure, consider infection. While the common presentations of rubor, calor, dolor, and tumor may make diagnoses easier, subclinical presentations or subtle findings make distract from a working diagnosis of infection. Ruling out infection is an important step in such patients.

This reference is a handy guide to and update of orthopaedic infections. Any operative procedure creates an opportunity for infection, even in the patients with the fewest comorbidities and those whose medical conditions have been optimized for surgery.

Lee C, Mayer E, Bernthal N, Wenke J, O'Toole RV. Orthopaedic infections: what have we learned?. OTA Int. 2023;6(2 Suppl):e250. Published 2023 May 4. doi:10.1097/OI9.0000000000000250

## 113th Annual Meeting Abstract Submission Deadline: May 1, 2025

Abstract applications can be submitted online through the COS website. Visit [www.cosociety.org](http://www.cosociety.org) or [Click Here](#) to submit! 

### The COS Resident Committee will Present the Following:

#### Top Resident Paper Awards

Three Resident Paper Awards will be presented for the most outstanding research project submitted by a resident. The awardees will receive a recognition plaque and a check in the amount of \$500.

#### Top Resident & Medical Student Oral Scientific Presentation Competition

Awards to the top three residents and top three medical students

**First Place - \$500**

**Second Place - \$250**

**Third Place - \$150**

#### Top Resident & Medical Student Rapid Fire Competition

Awards to the top three residents and the top three medical students

#### Posters & E-Posters

Awards for five resident posters and five medical student posters (2 regular posters, 3 e-posters)

## Dear Medical Students,

Join the Clinical Orthopaedic Society: Be part of the Next Generation Shaping the Future of Orthopaedics.

## Research & Academic Development:

Present your research at national conferences through podium sessions, posters, and rapid-fire presentations, gaining visibility in the field.

## Hands-On Learning:

Participate in exclusive workshops such as arthroscopy and surgical skills sessions, led by experienced orthopaedic faculty.

## Residency Preparation:

Receive mentorship and guidance on the residency application process, helping you navigate this crucial stage in your career.

## Benefits

### Free Membership:

Join COS at no cost as a medical student and gain access to valuable resources that will support your education and career development.

### Exclusive Mentorship:

Connect with leaders in orthopaedics who can guide you through the residency application process and provide career development advice.

### Scholarship Opportunities:

Last year, over \$16,000 in scholarships were awarded to medical students attending COS programs, helping you pursue your educational goals.
